

Substances Policy (Drugs, Alcohol, Tobacco, Vaping).

Chestnut Woodlands Forest Centre is an environmentally-friendly site, where smoking, vaping, consumption of alcohol and use of mind-altering substances are strictly forbidden. As such, Cape Cabin adheres to the site policy put in place by the landowners.

Anyone found in possession of any prohibited items, will be asked to relinquish them to secure storage and schools and parents / carers will be informed. Persistent breach of the Substances Policy could result in a placement at Cape Cabin being suspended or closed.

During science and PSHCE sessions, students will discuss the impact of using such substances.
